

**TO THE HONOURABLE THE SPEAKER AND MEMBERS
OF THE HOUSE OF REPRESENTATIVES**

This petition of The National Road Freighters Association

draws to the attention of the House:

Whereas the policy and legislation implemented by a Government, that has been formed out of a coalition of seat holders in circumstances where the Lower House could not form a majority, whereby the majority seat holder of that coalition is being manipulated by the views of the abstruse minority, so that the process of good government of the Commonwealth is being undermined, as evidenced by the following legislative and administrative acts of Parliament:

1. The banning of the 'live export trade' with Indonesia that has resulted in the substantial loss of a valuable foreign market for Australian Beef Producers, and as a corollary the substantial economic harm to an Australian Industry, the decision making of which was born out of acting on limited information and a lack of consultation with the industry as well as our foreign market place;
2. The passing of a new tax referred to as "The Carbon Tax" that specifically was not put to the Australian people as a proposed policy at the last election that was to be introduced into the new session of Parliament so that they, the Australian people, could decide whether Parliament was introducing a new law for the good government of all Australians;
3. An Inquiry into the Media, the terms of which are vague but ostensibly do not address the refining of ownership, rather addressing by implication 'Freedom of Speech';
4. The failure by Parliament to examine the antiquated preferential system of voting that has resulted in a minority government being formed so that minority interests control the majority.

We therefore ask the House to:

Vote on a motion of 'no confidence' in the government so that the current government:

1. Asks the Liberal National Party to try to command the confidence of parliament and to form government; or
2. Asks the Governor General to dissolve both houses of parliament so that the Australian people may ameliorate the position regarding the current flawed government by having the opportunity to elect a new government at a Double Dissolution election.

PRINCIPAL PETITIONER:

Name: Kevin Michael (Mick) PATEL
Address: 3 McLeod Street
RICHMOND QLD 4822

Signature:
